

What is ENERGY RESONANCE TECHNOLOGY?

Energy Resonance Technology (ERT) is a new way of applying the principles of Quantum physics which states that all matter is energy, has a frequency and a measurable wavelength. This technology is used increasingly within the medical field.

Each element on the Periodic Table has a unique frequency. Elements within this fine frequency range have been selected and fused into different mineral oxides, called BIO-CERAMICS. They continuously emit a pure source of BIO-GENETIC rays.

Extensive biological research has shown that far infrared rays of wave lengths of about between 3 – 14 Hertz are beneficial to the human body and are consequently known as BIO-GENETIC RAYS. The human body at a temperature between 36-37 degrees Celsius emits a bio-field at a frequency of 9.8 – 10.4 Hz. The natural frequency of these elements supports and strengthens the body's natural bio-field.

Water has an ability to absorb and store this frequency. The natural resonant frequencies of water and organic substances are within the far Infrared frequencies. Therefore water and organic substances absorb energy easily from the radiated Far Infrared rays. This has a beneficial effect on the health of people and living organisms, thus addressing certain chronic ailments with something as simple as water. No habit forming drugs, no side effects.

The activated water molecules have an enhanced ability to get rid of toxic or body waste and to increase the metabolic rate. The bio-genetic rays are able to neutralize blood toxicity and smoothens the wall of arteries, capillaries and veins.

It has been proven by scientists that Bio-genetic rays promote the growth and health of living cells, especially in plants, animals and human beings.

Benefits of Energy Resonance Technology

- Activates water molecules in the body.
- Improves oxygen levels in the body.
- Eliminates fats, chemicals and toxins from the blood.
- Eliminates waste from the body.
- Reducing acid levels in the body.
- Improves the nervous system.
- Prevents the growth of bacteria.
- Used in the Purification of Water.

The incorporation of ERT into our purification system adds yet another unique and exclusive feature to our system and emphasises our 90-days money back health guarantee.

**Your Health is
Important to us! Our
system can help you if
you suffer of one or
more of the following
conditions!**

- * Asthma**
- * Diabetes Mellitus**
- * Gout**
- * Migraine Headaches**
- * Cholesterol**
- * Rheumatism or Arthritis**
- * High Blood Pressure**
- * Spastic Colon**
- * Bladder and Kidney
problems**

**It is important that you daily drink the right
amount of water, at least 30 ml/kg of your weight
per day.**

**Numerous people with similar problems experience
proven healing results.**

**Based on this we offer a 90 days money or your health
back guarantee.**
